The role of semantically rich gestures in aphasic conversation

Judith Kistner, Jane Marshall, Lucy Dipper

Judith.Kistner.1@city.ac.uk

Division of Language and Communication Science, City University London, UK

No relationship between the number of semantically rich gestures and verbal ($r_s(17)=.230, p=.344$) or non-verbal ($r_s(17)=.362, p=.128$) semantic skills for PWA.

PWA and NHP differed in role of gestures but not quantity

Acknowledgements

Thanks to City University London for awarding the doctoral studentship.

Thanks to the BAS for awarding the conference grant and their financial support.

Thanks also to www.clipproject.info who have given me permission to use one of their cliparts as logo.
