EXPRESSIVE MOVEMENT KEY

Duration of the location

THE HEAD

nod = *
reverse nod = *
shake of the head = □
forward swing= ——
backward swing= ——

wiggle of the back, shoulders or whole upper torso = *

*Note that the forward and backward swing locations are the moments when an expressive moment is located yet where there is no identifiable movement pattern other than the swinging motion which has already been noted as the overall movement of the pianist.

THE LEFT HAND

wrist rotation = •
depressed wrist = ∨
upward wrist movement = Δ
raised, arched and held wrist = ▲
raised forearm = ○
flicked lift of hand away from the body with fingers remaining in close proximity to the keys = \n
flicked lift of hand towards the body with fingers remaining in close proximity to the keys = /

medium-high hand lift = ▲
high hand lift = ▲
hand movement downwards (below the keyboard height) = ↓
